AIT Worldwide Logistics Welcomes New Business Development Director to Support Flourishing Expansion in Asia

ITASCA, ILLINOIS – As part of the company's accelerating global proliferation, AIT Worldwide Logistics is pleased to announce the hiring of Myung Kim as Business Development Director.

Kim comes to AIT from CEVA Logistics where he most recently held the position of Managing Director for Korea, then Singapore, leading more than 850 employees and generating annual revenues in excess of \$140 million. He brings a wealth of specialized business development and operational expertise to his new role, particularly in the realm of trans-Pacific trade with Korean technology firms.

Based at AIT's Los Angeles, California facility, Kim will leverage nearly 15 years of industry connections and experience as he manages direct sales efforts in southern California. He will also strengthen the company's customer base by securing other east and southeast Asia-related opportunities across the United States.

This new assignment marks the second time Kim and his family will make their home in the Los Angeles area; they previously resided in Seoul, South Korea.

About AIT Worldwide Logistics

As a world-class global transportation and logistics provider, AIT Worldwide Logistics designs tailored transportation solutions by ground, air, ocean and rail for the unique applications and delivery service requirements of customers across the globe.

Founded in 1979, AIT has since grown into an enterprise spanning 41 global locations and over 190 global service centers. With more than 30 years of service excellence, AIT provides flexible, cost-effective and value-added services to enhance supply chain efficiencies for global accounts and vertical markets including government, home delivery, life sciences, perishables and retail logistics.

Our Vision

At AIT, we passionately value our co-workers, partners and communities while vigorously seeking opportunities to earn our customers' trust by delivering exceptional worldwide logistics solutions.
