## **BX Solutions Begins Service**

**Toledo, OH** – January 21, 2013 – BX Solutions is pleased to announce the beginning of a new time definite trucking service connecting 31 markets in the Midwest and Southeast through its new hub operations located in Toledo, Chicago and Atlanta. This service offering specializes in airport-to-airport service using a combination of trusted colleagues and the experience of the management team at BX Solutions.

“As we begin our second year of full operations as a Company, we are very excited to offer this new service to these markets.” states Chris Marshall, CEO of BX Solutions. “We’ve been strategically planning these routes for a year and we are proud to watch them come to fruition.”

Transit Times, Cities Serviced, Account set up links, Order Entry and Tracking System, and other Company information can be found at [www.bxsolutions.com](http://www.bxsolutions.com). Located at our Toledo Hub is a full service booking center, which can be reached at 1-855-BOOKTOL. Agents will assist clients with customer set up along with booking and track and tracing of shipments.

The BX management team consists of a group of highly experienced transportation industry professionals. Having previously worked together for decades, this management team results in a motivated, highly effective, and harmonious operational force that can create innovative solutions to the transportation industry.

“Beginning operations Monday January 21<sup>st</sup> was a milestone for BX and we plan to expand our footprint from coast to coast within the next several months.” Comments Marshall.
