For Immediate Release

Hamburg Süd Announces Change in Chassis Provisioning Model in Norfolk, Virginia

(Morristown, New Jersey...April 29, 2013)...Hamburg Süd will implement a revised policy on chassis provision in the Norfolk, Virginia area.

As of July 1, 2013 the company will no longer serve as a provider of chassis to shippers for cargo moving under merchant's haulage through area terminals and depots. Shippers, their agents or consignees, can procure equipment either directly from the HRCP II Pool or from various other chassis vendors. Carrier provided intermodal moves will be unaffected by this change.

For merchant's haulage, the contact for HRCP II Pool is as follows:

Virginia Intermodal Management
Kara Matzko
Phone: (757) 440-5190
Email: kmatzko@hrcp2.org
