

6/3/13

## **BURST NOTIFICATION**

**To: Maher Terminals Customers**

**New System Implementation  
Main Terminal Update**

**As a reminder, we will be implementing the final phase of our new Terminal Operating System (TOS) during the weekend of June 8, 2013.**

In order to prepare for this major change we will be altering our terminal schedule as follows:

Thursday, **June 6<sup>th</sup>** all truck gate operations will be closed at 6:00 p.m. **We encourage everyone to pick up as many containers as possible prior to the close of business.**

Friday, **June 7<sup>th</sup>** the terminal will be closed and there will be no truck line activity. June 7<sup>th</sup> will not count when calculating free time (as with Holidays and weekends). For containers already in demurrage on this date, June 7<sup>th</sup> through June 9<sup>th</sup> shall be waived, resuming on Monday, June 10<sup>th</sup>.

Saturday, **June 8<sup>th</sup>** there will be limited vessel activity in the afternoon.

**Sunday, June 9<sup>th</sup> we will be open for limited truck line activity for all testing of gate and clerical functionality. This will include the main Chassis Depot.**

The gate operation will include the following type moves:

- Import deliveries
- Receipt of exports
- Receipt of empties only if it is part of a double move to pick up an import load
- Reefer processing

This very important testing phase will be available on a controlled limited basis between the hours of 8:00 a.m. and 4:00 p.m. **Any truckers who wish to participate in this process must register with us in order to gain access to the terminal.** All requests must be emailed to [mmonaco@maherterminals.com](mailto:mmonaco@maherterminals.com). Please include the following information in your email.

- Trucking company name
- Number of drivers expected
- Number of moves by move type

Monday, **June 10<sup>th</sup>** our gates will re-open at 6:00 a.m.

Thank you,

# Maher Management
