Zenith Global Logistics Expands Humidity-Controlled Warehouse in Vietnam

HO CHI MINH CITY, VIETNAM – November 5, 2013 – To keep up with growing demand for humidity-controlled warehousing in Vietnam, specialized furniture carrier and international 3PL provider Zenith Global Logistics has expanded its Ho Chi Minh City facility.

“Vietnam has continued to be a key geographic market for furniture sourcing as a result of continued labor shortages in China,” states Jack Hawn, President and CEO of Zenith Global Logistics. “We’ve had increasing numbers of customers come to us with a need for humidity-controlled storage. Because of the ambient climate in the region, controlling moisture levels is critical to prevent mold growth and warping of wood.”

The new bonded warehouse space has 7,500 square meters, and is located in the Bình Dương Province, a growing manufacturing region for furniture. The distribution center offers high clearance with specialized racking designed specifically for home furnishings. Currently the facility has capacity for new customers, with the ability to expand based on each customer’s unique market volume needs. The Ho Chi Minh City distribution center houses freight destined for Zenith Global Logistics’ U.S. network, including its freight hubs in California, North Carolina, and Texas, as well as direct-to-customer locations.

Zenith Global Logistics Expands Humidity-Controlled Warehouse in Vietnam – Continued

Zenith Global Logistics has taken strategic growth initiatives over the past several years that include the opening of regional hubs throughout the U.S., including Atlanta, Baltimore, Dallas, Tupelo, Miss., and West Palm Beach, Fla. Most recently, the company relocated and expanded its Baltimore hub 300%, adding a full-service distribution center to that location's existing freight capabilities. The firm also boosted its North Carolina storage and handling capacity by more than 30% when it acquired the former Boyles Furniture facility in Conover.

Zenith Global Logistics is a total supply chain logistics provider specializing exclusively in home furnishings. The company services retailers and manufacturers throughout North America with warehousing, consolidation and full/split container programs originating from multiple domestic and Asia locations. The company owns and operates its own truck fleet as well as transportation hubs and more than 3.5 million square feet of warehousing, including facilities in California, Florida, Georgia, Indiana, Maryland, Mississippi, North Carolina, Texas, and Virginia. Zenith Global provides national home delivery service throughout the United States through a network of company-owned delivery operations and local market providers.
