Zenith Global Logistics Relocates and Expands Maryland Hub

New Facility Triples Square Footage & Adds Full-Service 3PL Warehousing to Existing Freight Services

CONOVER, NC – October 9, 2013 – Specialized furniture carrier and international 3PL provider Zenith Global Logistics has relocated its Elkton, Maryland freight hub to an Aberdeen-based facility, expanding its square footage 300% and adding a full-service distribution center to that location’s capabilities.

The new Aberdeen hub totals 88,000 square feet, and is designed to continue providing timely speed to market for high population areas throughout New England. “This new location was chosen strategically and specifically to enable our dispatching operation to deal with the latest hours of service changes required by the latest Federal Motor Carrier Safety Administration’s Compliance, Safety, Accountability rules,” explains Jack Hawn, President and CEO. “Our goal was to select a location that would ensure our drivers could consistently transport product from North Carolina to Maryland within the new driving time limits.”

“Our new Aberdeen location also allows us to provide our customers in the Northeast with full-service warehousing, including 100% traceability, 24/7 product visibility, and true FIFO inventory accountability and lot matching,” Hawn continues. “Plus, just as we do at our North Carolina, Texas, and California operations, we offer a complete range of specialized 3PL warehousing services.”

Zenith Global Logistics Relocates, Expands Maryland Hub – Continued

The Maryland expansion is part of a long-range strategic growth plan the company has been operating under during the past several years. In that time Zenith has opened regional hubs throughout the U.S., including Atlanta, Baltimore, Dallas, Indianapolis, San Antonio, Tupelo, Miss., and West Palm Beach, Fla. It also recently boosted its North Carolina storage and handling capacity by more than 30% when it acquired the former Boyles Furniture facility in Conover as its new corporate headquarters. Future plans include a new facility in California.

Zenith Global Logistics is a total supply chain logistics provider specializing exclusively in home furnishings. The company services retailers and manufacturers throughout North America with warehousing, consolidation and full/split container programs originating from multiple domestic and Asia locations. The company owns and operates its own truck fleet as well as transportation hubs and more than 3.5 million square feet of warehousing, including facilities in California, Florida, Georgia, Indiana, Maryland, Mississippi, North Carolina, Texas, and Virginia. Zenith Global provides national home delivery service throughout the United States through a network of company-owned delivery operations and local market providers.
