TEU count includes all international containerized oceanborne cargo loaded at U.S. ports, including outbound trade to Puerto Rico.

The data compares carriers in the first nine months of the year with their volumes across the first nine months of 2008-2011 to capture the trade progress in pre-recession, recession, post-recession and recovery volumes.

*Carrier subsidiaries are consolidated.

Compiled by Marsha Salisbury, JOC research editor, msalisbury@joc.com, or 973-776-7828.

TEU count includes all international containerized oceanborne cargo discharged at U.S. ports, including trade inbound from Puerto Rico.

The data compares carriers in the first nine months of the year with their volumes across the first nine months of 2008-2011 to capture the trade progress in pre-recession, recession, post-recession and recovery volumes.

*Carrier subsidiaries are consolidated.
